Antony Perez in O

Technical Writer

Fremont, CA • antonyperez0@yahoo.com • 408-722-6599

Profile Summary

• Technical Writer with experience in authoring clear and concise user guides and API documentation for mobile SDKs and e-commerce features.

• Proven ability to collaborate with engineers to improve developer understanding and integration efficiency.

• Adept at migrating documentation to GitHub repositories for enhanced version control and collaboration.

• Resourceful in developing internal Android applications to address specific business needs, such as employee time tracking.

Technical Skills

Programming Languages: Java, Kotlin, JavaScript , HTML/CSS
Frameworks & Libraries: ReactJS, JetPack Compose, Node.js, bootstrap, next.js
Dev. Tools: Git, typescript
Methodologies: Agile, Scrum

Education

Western Governors University — Salt Lake City, UT
Bachelor of Science - BS, Computer Science — Nov. 2025 - Present

Multiverse Bootcamp — Manhattan, NY
Computer Software Engineering — Sept. 2024

Altcademy — Hong Kong
Course in Full Stack Web Development — April. 2024

Christopher High School — Gilroy, CA
High School Diploma — June. 2014

Software Projects

PoketDex ⤴ — January 2025 - Present

• To showcase independent initiative and Android development skills, this personal Android application was developed using **Kotlin**, consuming the **PokeAPI** to not only display comprehensive information for each of the original 151 Pokemon, but also to empower users with the ability to create and manage their desired Pokemon teams.

• The application utilizes **Retrofit** for robust networking, enabling efficient fetching of data from the **PokeAPI**, while **Jetpack Compose** is leveraged to design and implement a user interface that is both smooth and responsive, ensuring a seamless user experience.

• In the development process, a **PokemonItem** class was meticulously implemented to represent each Pokemon and their associated details, complemented by the creation of a **PokemonResponse** class specifically designed to handle the API responses effectively; furthermore, a **PokeApiService** interface was defined to streamline API requests.

• To ensure code quality and maintain functionality, rigorous unit tests were written for the **PokeApiService** using **JUnit**, demonstrating a commitment to robust development practices.

Work Experience

Clover Network, LLC

Fremont, CA

Technical Writer

Sept. 2024 - Present

• Author and maintain comprehensive technical documentation for third-party developers, enhancing the developer experience and streamlining integration processes.

• Manage and update **OpenAPI** specifications within the **ReadMe.io** platform to ensure accurate and accessible API reference documentation.

• Developed and automated documentation maintenance scripts using **GitHub Actions** to proactively identify and resolve issues like broken links, improving overall site integrity.

• Collaborate with engineering teams to ensure the technical accuracy and clarity of documentation for new features and product releases.

UL Solutions

San Jose, CA

Laboratory Technician

Apr. 2022 - Sept. 2024

• Conducted comprehensive product safety testing on a variety of **electrical products** and **components**, ensuring compliance with **UL standards** and industry regulations.

• Performed detailed **data analysis** and reporting, identifying key performance indicators and contributing to product improvement recommendations.

• Collaborated with engineers to troubleshoot product issues and identify areas for design enhancement.

• Maintained meticulous laboratory records and documentation, ensuring accuracy and traceability of testing procedures.

Adidas

San Jose, CA

Retail Sales Manager

Sept. 2020 - Feb. 2022

• Led and motivated a high-performing sales team, providing coaching and mentoring to enhance individual performance and achieve collective sales targets.

• Managed inventory levels and product displays, optimizing store presentation and minimizing stock discrepancies.

• Implemented effective sales strategies and promotions, driving customer engagement and increasing revenue.
